*DataBank continues strategic expansion through the acquisition of carrier-rich downtown data centers in Cleveland and Pittsburgh*

**Dallas, TX – January 31, 2017 – PRESS RELEASE** – DataBank, Ltd., a Digital Bridge portfolio company, has announced the acquisition of network neutral data center facilities in both Cleveland and Pittsburgh from 365 Data Centers. The acquisition provides DataBank with key interconnection assets in both markets and further accelerates the company’s national expansion strategy. Both markets were identified by DataBank as attractive expansion geographies, and the acquisition provides the Company with differentiated entry points due to the number of top-tier carriers, the downtown locations and the existing high quality customer bases. DataBank plans to leverage these locations as an anchor for future expansion in each market.

“DataBank’s acquisition of the 365 facilities, together with the C7 Data Centers acquisition earlier this month, accelerates the Company’s business plan and complements our investment thesis in internet infrastructure at Digital Bridge,” said Marc C. Ganzi, founder and Chief Executive Officer of Digital Bridge. “Our execution at DataBank aligns with our fundamental belief in the convergence of communications infrastructure; we see significant opportunities to leverage these facilities, network diversity and customer reach across not only DataBank, but all of our businesses, customers and partners.”

“Our success has stemmed from capitalizing on strategic growth in strong but underserved markets and expanding with our customers and partners,” said Tim Moore, CEO of DataBank. “With eleven data centers in six major cities spanning three time zones, DataBank is poised to make a significant impact in every market it serves.”

DataBank has custom-tailored solutions for colocation, cloud, interconnectivity, storage, and hosting along with a suite of complementary managed services available now in six major US markets which include Pittsburgh, Cleveland, Minneapolis, Kansas City, Dallas and Salt Lake City.
