Agreement allows Aptum to focus on Data Center and Hybrid Multi-Cloud Managed Solutions

TORONTO, ON – May 6, 2020 –PRESS RELEASE – Aptum, a global hybrid cloud and managed services provider, today announced it has completed a transaction with Beanfield Metroconnect for Aptum's WAN business. The agreement allows Aptum to focus on growing its data center and hybrid multi-cloud solution offerings, while the addition of Aptum's metro networks in Toronto and Montreal enhances Beanfield's connectivity and fiber solutions.

"We are confident that sharpening our long-term focus by investing more time and resources into the growth and enhancement of our data center platforms is the right move for Aptum and will allow us to solidify our hybrid multi-cloud managed solution offerings," said Susan Bowen, CEO and President of Aptum Technologies. "As we move toward a new normal, we look forward to working closely with our invaluable partners at Digital Colony to capitalize on growing demand and continue to provide our customers with complex cloud, hosting and colocation services that prioritize security and flexibility."

Over the past months, Aptum has launched multiple solutions for its data center and hybrid multi-cloud customers, including Aptum Hybrid Cloud Manager, a powerful multi-cloud management platform; a Managed Detection and Response security offering, in partnership with Alert Logic; and Managed Amazon Web Services – a compelling addition to Aptum's multi-cloud portfolio. The WAN business transaction will enable Aptum to focus even more on rolling out innovative data center and managed cloud offerings.

Aptum is working closely with Beanfield to ensure a smooth transition for WAN business customers.

About Aptum Technologies

Aptum Technologies enables customers to unlock the potential of their data infrastructure to drive tangible business outcomes and maximize the value of their technology investments.
